Job Experience

Purbanchal Ground Water Tube well Udhyog | Biratnagar-3, Morang, Nepal

Chief Technology Officer | From 2021 until 2024

Purbanchal Ground Water Tube well Udhyog, is one of the leading companies providing complex water management systems across province 1 and 2 of Nepal. The main aim of the company is consulting and taking on complex projects to manage groundwater for industrial and general purposes. My job as a chief technology officer was to investigate and access all the technology required during the projects and provide systemic solutions to the issue in the field. This included notifying project directors, and board members and assisting field workers.

Leading the department and team for identifying the needs and gaps in digitization of system processes to minimize human interference. Designing and deployment of new and innovative IT systems and services. Researching and implementing technology strategy solutions to maintain organization's effectiveness and efficiency by delivering strategic plans for implementing information technologies.

I was spearheading the development and execution of a forward-thinking technology strategy aligning with the company's vision, resulting in increased innovation and market competitiveness. Leading cross-functional teams to drive product innovation, resulting in the successful launch of a better ground water boring system that significantly expanded the company's product portfolio. I was involved in implementing cost-effective technology solutions, resulting in a 30% reduction in IT infrastructure costs while maintaining or improving system

performance and reliability. By attracting top technology talent, building high-performing teams, and providing mentorship and development opportunities, resulting in improved team productivity and employee retention.

Achievements and Accomplishments as Chief Technology Officer:

Project Delivery Excellence: Oversaw the successful delivery of drinking water in Dharan along with GWT (The Gurkha Welfare Trust) piping clean, safe water straight to villagers' doorsteps.

Strategic Partnerships: Forged strategic technology partnerships and collaborations with both governmental and non-governmental sectors that enhanced the company's capabilities and market reach.

Data-Driven Decision-Making: Implemented data analytics and business intelligence solutions, enabling data-driven decision-making and insights into customer behavior, market trends, and operational efficiency increasing in total number of projects gained and completed by more than 50%.

Disaster Recovery and Business Continuity: Established robust disaster recovery and business continuity plans, ensuring minimal disruption to operations during unexpected events.

Sustainability Initiatives: Championed sustainability initiatives, integrating ethical and environmental considerations into technology decisions and practices.

Board and Stakeholder Communication: Effectively communicated technology strategies, progress, and risks to the board of directors and key stakeholders, building confidence in the company's technology direction.

Ethical AI Practices: Promoted responsible AI practices, ensuring that AI and machine learning technologies adhere to ethical guidelines and regulatory standards.

Recognition and Awards: Received recognition within the industry as one of the few people who has integrated GIS technology with deep water boring and tube well construction .

Big Circle Company Pvt. Ltd. | Harati Bhawan, Gwarko, Lalitpur

Digital Marketing Manager | From 2014 to 2017

During my tenure as a Digital Marketing Manager at Big Circle Company Pvt. Ltd., I had Implemented effective SEO strategies, resulting in a 50% increase in organic website traffic, and improved user engagement by enhancing content and user experience. Generated NPR. 1.2 million in annual revenue through targeted PPC advertising campaigns and optimized

e-commerce conversion rates for a 25% sales increase. Successfully expanded Big Circle Company's social media following by 15,000+ engaged followers and orchestrated a viral social media contest with 100,000+ impressions. Launched a highly successful content marketing campaign, increasing blog post shares by 35% and email subscribers by 40%, while also improving content production efficiency. Revamped the email marketing strategy, achieving a 15% higher open rate and a 10% increase in click-through rates through segmentation and personalization . Led a team of 6 digital marketing specialists, fostering collaboration and alignment with sales, resulting in a 25% boost in lead conversion rates.

Received the 'Digital Marketing Excellence Award' at Big Circle Company's Annual Awards Ceremony for outstanding contributions to the company's online presence.
